

the detachment

the detachment pdf

the detachment Detachment, also expressed as non-attachment, is a state in which a person overcomes his or her attachment to desire for things, people or concepts of the world and thus attains a heightened perspective. It is considered a wise virtue and is promoted in various Eastern religions, such as Jainism, Taoism and Buddhism

Detachment (philosophy) - Wikipedia

the detachment Causes. Emotional detachment often arises from psychological trauma in early years as well as throughout adulthood, and is a component in many anxiety and stress disorders. The person, while physically present, moves elsewhere in the mind, and in a sense is "not entirely present", making them sometimes appear preoccupied.
