the determinants of currency crises a political economy approach Currency substitution or dollarization is the use of a foreign currency in parallel to or instead of the domestic currency.. Currency substitution can be full or partial. Most, if not all, full currency substitution has taken place after a major economic crisis, for example, Ecuador and El Salvador in Latin America and Zimbabwe in Africa. Some small economies, for whom it is impractical to ...

the determinants of currency crises a political economy approach Highlights We examine the determinants of non-performing loans (NPLs) in the Greek banking sector separately for each category of loan. NPLs can be explained by macroeconomic variables and management quality. Differences in the quantitative impact of macroeconomic factors among loan categories are evident.

the determinants of currency crises a political economy approach Fig. 2 illustrates the distribution of publications according to sustainability dimensions. 5 The number of papers increased continuously over the years. Interestingly, despite the existence of social and environmental reporting in the 1970/80s (e.g., Fifka, 2012, Kolk, 2010), the growth of sustainability reporting in the new millennium seems to have invigorated the entire field of research.
