the developing person throughout childhood student media tool kit 3. Resilience Through Self-Awareness. Basically, self-awareness is about knowing the A-B-C of our mind, where A is the Antecedent or the cause that has led to the current situation, B is the behavior or the way we have chosen to react to it, and C is the consequence that our actions and emotions are likely to bring. Identifying the A-B-Cs of every stressful encounter makes a person more ...

the developing person throughout childhood student media tool kit Resilience is the ability to recover quickly from adversity, and clearly this is a skill that all leaders need. People who are resilient not only perform competently under stress, but they recover quickly from negative circumstances, and they use those experiences to grow, becoming more resilient in the future. Throughout your career, you need to not only bounce back from challenges ...
