the development and application of a neoburkeian framework for rhetorical criticism
Rapid-application development (RAD), also called Rapid-application building (RAB), is both a general term, used to refer to adaptive software development approaches, as well as the name for James Martin's approach to rapid development. In general, RAD approaches to software development put less emphasis on planning and more emphasis on an adaptive process.

Rapid application development - Wikipedia

the development and application of a neoburkeian framework for rhetorical criticism
Web application development is the process and practice of developing web applications. There is a consensus that the processes involved are extensions of standard software engineering processes. Considering this, along with its unique characteristics, popular frameworks used include the spiral approach and business-oriented approach to application development, among other models that address ...
