the development of jet and turbine aero engines The Honda HA-420 HondaJet is the first aircraft developed by the Honda Aircraft Company. It is a twin-engine, six-seat light business jet, and is also considered a very light jet. [citation needed] It was designed in Japan and then developed and manufactured in Greensboro, North Carolina, United States.

Honda HA-420 HondaJet - Wikipedia

the development of jet and turbine aero engines A jet engine is a type of reaction engine discharging a fast-moving jet that generates thrust by jet propulsion. This broad definition includes airbreathing jet engines (turbojets, turbofans, ramjets, and pulse jets). [clarification needed] In general, jet engines are combustion engines. Common parlance applies the term jet engine only to various airbreathing jet engines.

Jet engine - Wikipedia
